GEN. PAINE NOT GOING TO RESIGN AND DON'T WANT TO BE A DISTRICT COMMISSIONER.—Com-missioner of Patents Paine to-day said to a Star WANT TO BE A DISTRICT COMMISSIONER.—Commissioner of Patents Paine to-day said to a Star reporter that he has no present intentions of resigning his office. He has neverspoken to elther the Secretary of the Interior nor the President in regard to the matter. The report that he issoon to leave very likely has lits foundation in the fact that he has frequently said that his occupation of the office is not a permanency. That has been the understanding even before he was applointed. He could not tell when there was any likelihood of his leaving, or if there would at any definite date be any probability of it. He is simply a man in an office, without any present intentions, either one way or the other, and with the understanding that his occupance; of that office is not to be regarded as permanent. The reporter called General Paine's attention to the fact that a delegation in his behalf for District Commissioner had called on the President the other day and asked if he was a candidate for that place. He repited in the negative. General Paine said that he had informed the delegation before they went to the President that he would not be a candidate. If the President should ask him about it he should surface had no ambitton for the place. "I cannot," said he, "conceive any condition of circumstances by which I could be even induced to be an applicant for the place."

Another Ute War, Perhaps.—The Indian for

Justice and the State Department of Justice and the State Department were not closed "officially" yesterday, though most of the clerks had holiday. The Interior Department employes did not have a holiday; that department only gave "a recess" from 12 to 1 In order to allow the clerks an opportunity of witnessing the parade.

A MEMORANDA ON THE TREATMENT OF INFECT BD LOCALITIES at the end of an epidemic, has been prepared by the National Board of Health for publication in their official bulletin. It recommends that persons who have been absent from places infected with yellow fever should not occupy houses before they have been thoroughly cleansed, ventilated, fundgated and chilled; that the doors and windows should be opened, and all parts of the house exposed when the thermometer indicates the lowest degree of temperature. Fires should only be lighted a few hours before occupancy. The measures of cleansing, distinction, exposure to cold and air should include as far as possible closets, presses, cellars, shut places of every description, and boxes or trunks, dry wells, cisterns, &c., should be empited and cleansed; all bedding, clothing, textle rabries of all descriptions, or other material capable of shielding the infection from cold or from the air, should be disinfected by heat, either moist or dry. These measures should be begun as long as possible before the return of absentees or visits by unprotected persons. Persons returning to places which have been dangerously infected should exercise care in purchasing bedding or readymade clothing without being assured that it has been properly distinceted.

paration of the reportion congress win be left open for discussion at these meetings.

General Francis A. Walker, superintendent of the census, left Washington last night for New York city, to participate in a conference, held there to-day, between a committee of the National Academy of Sciences and the executive committee of the National Board of Health, with a view to an ultimate agreement as to the proper form and powers of the national public health organization. The expediency of permanently establishing a national quarrantine system, and the relations which in that event, should be established between it and the local or state quarrantines, are also subjects for consultation and comparison of views at to-day's meeting; the Board of Health being required by law to consult with the Academy of Sciences upon all the questions above indicated, and to report a concurrent plan of permanent organization to Congress during the next session. General Walker is a member of the committee appointed by the Academy of Sciences to represent it in these matters. The chalman of the committee is Dr. Weir Mitchell, of Philadelphia, the distinguished physiologist. he distinguished physiologist.

COMPROLLER OF THE CURRENCY KNOX is preparing a letter in reply to the recent one of District Attorney Bilss certifying bis course towards the National Bank of the State of Missourt. He will show that he has done all his departent is required to do in such cases, and that this bank has been treated exactly as others have been. The letter will, it is understood, be pretty severe on Mr. Bilss. It is stated that the latter gentleman has written another letter to the Attorney General stating more explicitly what he said in his last concerning Mr. Knox, and going further in his statements.

NATIONAL FAIR.

Large Attendance To-day.

THE BUILDINGS, THE EXHIBITS, THE RACES, ETC.

The second day of the National Pair was most auspictous. There was not only fair, but mild weather and a large attendance at the grounds. Things were more ship-shape to-day than yesterday. Machinery hall was nearly filled with exhibits, and the main building had a display to which most of our prominent business men which most of our prominent business men have contributed, and which elicited the admira-

which most of our prominent ousness men have contributed, and which elleited the admiration of sight-seers.

The Buildings.

The Buildings.

The main building is a one-story brick structure, surmounted by a cupola. The dimensions are 300 by 100 feet, height from the central portion to the fiag-staff being 120 feet. The interior s painted in red, blue, and gold. Over the north door—the main entrance—a band stand, flanked on either side by retiring rooms, has been erected. The main aisle, running north and south, is ten rect wide; and that in the center, running from east to west, eight feet. Between these aisles on either side are smaller ones, six and four feet wide. In the middle of the hall is an octagonal space for the Botanical garden exhibits—a pyramid of flowers. The spaces for exhibitors commence from a point about six feet from the passageway under the band stand, being lettered from A to I, inclusive, and take up all the room in the main body of the hall. Those in the central portion have the widest aisles, and, of course, have been in great demand. The hall is lighted by side windows, and also from the roof.

The art building is not yet completed. It is of

is lighted by side windows, and also from the roof.

The art building is not yet completed. It is of brick, and is designed to be a permanent structure. It consists of a large hall in the center running the entire depth of the building, upon either side of which are two commodious rooms with a common entrance to each pair, thus given with a common entrance to each pair, thus giving four spacious rooms for the hanging of pictures, as well as the hall, which is the samwidth as the rooms. Each room is lighted by a
sky-light of ribbel glass.
Agricultural hall is 200 by 75 feet. The colors
used in painting the interior are dark brown,
light gray, and sky-blue. The lighting is the
same as in the main hall. The building is used
for the exhibition of carriages, agricultural implements, &c.

The Main Hall.

The attractive feature of the exhibition is the main hall. Julius Lansburg has a space elaborately and attractively filled with carpets, rugs, rately and attractively filled with carpets, rugs, &c. A. Saks, a most excellent stock of clothing on exhibition. The Stieff and Bradbury planes make a good display. Caverly, the dealer in gas fixtures, has an attractive corner. A feature of the display is the baking of bread and biscaits by the Sterling Manufacturing Company of Baltimore. Wm. M. Galt & Co., the flour mer-chants, have a most elaborate display of brands of flour in sacks and barrels. Clarke & Given made even coal and wood look attractive in their well arranged glass cases. J. F. McKenny, of ith street, sewing machines, has an attractive corner for ladies. Among the attractive exhibits is that of Dr.

Among the attractive exhibits is that of Dr. Van Bogan, covering 70 varieties of apples and 50 of peaches, besides other fruits, from his tenyear-old orchard. In the woman's department may be seen every variety of needlework, worsted, silk and cotton embroidery, wax and shell-work, tapestry and composition pictures, crocked in worsted and lace. Havenner's bakery shows nan'exhibit one hundred and innety-seven varieties of crackers and small cakes. The Spencaran Business College makes a neat and attractive exhibit of their system of instruction, their text-books and appliances. Dr. James Sione, who makes the links used at this and a number of other colleges and public institutions, has on exhibition about thirty varieties of writing links. Johnson, the photographer, as has also Bell, while Mr. Wm. T. Armstrong exhibits a photograph of the capitol nearly nine feet in length. It is the largest that has ever been taken. The Reform, School exhibits a handsome vase made by two boys who have been instructed there. It is made of copper slag, which hab been painted with oxide of zinc, forming a snow-like covering.

GREENBACK MONEY ORNAMENTS.

Among the curiosities at the Fair is Masier J. Woiston Hertford's exhibit of greenback money ornaments. These ornaments are made out of the greenback money redeemed by the U. S. government. The process of destruction is by maceration, which reduces it to pulp, and this pulp is sold by the government, and part of its purchased for the manufacture of ornaments, which is becoming quite an art. The most prominent and interesting objects of this kind are a bust of Robert J. Jugersoll, representing 500,060 e. a monument, and beautiful column with a thermometer attached, representing about two taillion dollars; a bust of Moody, representing \$50,060; a monument, and beautiful column with a thermometer attached, representing about \$50,060 each.

A Splendid Horse Show.

A Splendid Horse Show. A Splendid Horse Show.

The feature of the fair is undoubtedly the stock display. Old horse men, who talk "hoss" by the card, say that there never was at any fair a better exhibition. Gen. Grant's two Arabian horses attract universal admiration. They are in charge of Major J. K. Leavitt, an old turiman. They are named respectively Lindentree and Leopard. Leopard is nine years old and weighs 900 pounds. Lindentree is five years old and weighs 700 pounds. Both are of a greyish cast, unbroken and full of fire.

cast, unbroken and full of fire.

PRESIDENT GARRETT'S HORSES.

President Garrett, of the Baltimore and Ohlo Rallroad Company, contributes to the stock department a most admirable exhibit. The principal feature is Saieda, an Arab mare, purchased in Damascus, Syria, by the late William McDouald, of Baltimore. She was foaled in 1851 and is the dam of Allineck, Sultana, Guinore and other noted horses. The mare is almost milk white, rather small in size, and notwith standing her age is said to be a "chipper" animal. Another beautiful animal is Sultana, a gray filly, foaled in 1855, sired by Bashaw Joe. Sultana has a good record on the track. At Prospect Park, in the spring of 1899, he beat George Wilkes' Goldsmith Mald. Joe. Sulfana has a good record on the track. At Prospect Park, in the spring of 1899, he beat George Wilkes' Goldsmith Mald. Another beautiful animal is a black mare named Flora. She is said to have been sired by Black Hawk Morgan "Telegraph," dam a chestnut mare brought from New York. Another attraction is Young Hercules, a grey horse foaled in 1876. Seilm is a bay horse, foaled June 7th, 1870, y John Harper's Virginia. Mr. Garrett is proud of this animal, and it is one of which Gen. Grant always spoke with pride. A beautiful black horse named Hamlet, of President Garrett's collection, attracts much attention. Hamlet was foaled July, 1871, streed by Joe Lane. Among the others of President Garrett's collection are adminack, a silver gray, Touled in 1866. Hennie Scotland, out of the Oralian Essner, Saladia, a bay horse, foaled in 1899 by Duniel the Prophet, out of Esner; Daniel the Prophet, out of Esner; Daniel the Prophet, out of Farea; Daniel the Prophet, out of Farea; Daniel the Prophet, out of Farea; Daniel the Record of the Oralian Essner, Saladia, a bay horse, foaled in 1874 by Hamlet; also, Chieftain, a sucking colt sired by Meadow Chief, dam Flora. a sucking coit sired by Meadow Chief, dam Flora.

A SPLENDID LOT OF KENTUCKY THOROUGHBREDS are exhibited under the charge of Paymaster Smith, of the mayy: Ericsson, the sire is a magnificent mahogany colored, 17½ hands high animal, with black pants, coat fine and silky, tail and mane long and black. His beauty of form is remarkable. He has a four-year old record of 226 to a wagon. He has received prizes at Lexton, Ky., where he was bred. Paymaster Smith also exhibits Kingsiy, foaled in 1879; Sidney and Rusher, Gentry, Henry Dunlap, Miss Russell are Kentucky thoroughbreds, too, and three-year olds Sidney and Rusher are yearlings.

The Haces Yesterday.

The Star yesterday gave the result of the first race—a mile dash. It was a dead heat between Ike Bonham and Scotilla, with Konrad given the third place. After the other races were over the heat between these two horses was run off. It was a splendid run between them. The two started off together, and kept side for the first half mile, when Scotilla began to forge ahead a little. The last quarter was very exciting. The two horses fore down the track with the jockeys using their whips Scotilla came in ahead by about a neck. Time, 150 of the second race. Potomes, weenership.

was very exculng. The two instructions was very exculned and the track with the jockeys using their whips. Scottlia came in ahead by about a neck. Time, 1-47.

For the second race, Potomac sweepstakes, mile and a half dash, for three-year-olds, Claudia, Juanita, Eunice, Pequot, Gabriel and Irish King were entered. Irish King sold the favorite it he pools. After a number of false starts, th horses got off in a bunch, except Juanita, who was some distance behind. It was a very goo race until the last quarter, when the horses began to scatter, with Pequot, Irish King an Eunice to the fore. The two first soon led all Pequot came in ahead by a length, Irish Kin second, Gabriel third, Claudia fourth, Eunic fith, and Juanita sixth. Time, 2:454.

A hurdle race closed the day's programme. The starters were Troublesome, Pomeroy, Dandy and Derby. Pomeroy and Dandy were the favorites in the pools. THE PRESIDENT'S VISIT TO THE FAIR.

Major Morgan was requested by the board of directors of the Fair Association to wait upon the President and Invite him to participate in the opening ceremonies of the fair. He did so and yesterday went to the White House and rode out with the President in his (the President's) carriage to the grounds, the Cabinet officers, with the exception of Secretary McCrary, following in carriages. At the grounds the Fair Association received these invited guests cordially in the pariors of the club house. After partaising of a lunch the President's party were excorted to the grand stand by a squad of mounted police, where he witnessed the races, and visited the exhibition rooms, expressing himself well pleased with what he saw and the energy displayed by the association in getting the grounds ready in so short a time. After viewing all there was to be seen, a squad of sounied police escepted the President over the Frentwood read as far as Boundary street, on his way home. On arriving at the White House Major Morgan accepted an invitation to dine with the President.

A MEETING OF THE BOARD OF DIRECTORS

with the President.

A MEETING OF THE BOARD OF DIRECTORS
of the Fair Association was held last night to
discuss the races. The subject of the receipts of
yesterday was discussed, and the amount was
not believed to tally with the number present.
Measures were adopted to prevent the admission
of persons not entitled to enter. The board decided to add to the features next Friday "dead
scent" fox chases by beagle and other hounds,
offering suitable premiums. There will be two
hunts, one by beagles around the course, and
another by any packs through the initield, woods,
etc. Col. S. N. Hyde, of Boothby Hill, Harford
county, Md., has made several entries, and
others are expected from Maryland and Virginia.

county, Md., has made several entries, and others are expected from Maryland and Virginia.

FAIR NOTES.

The race track to-day is in excellent condition. Work on the grand stand is progressing rapidly, and it will be finished by to-morrow.

A board walk has been constructed from the railroad platform leading directly to the grounds of the fair.

The hall devoted to machinery is as yet without steam power. The display here consists principally of agricultural impirments, such as mowers, threshers, plows, Fairbanks' scales, velocipedes, hardware of all descriptions, &c.

The art building is not yet ready. In the main hall, however, many excellent oil paintings, steel engravings, &c., ornament the walls. A feature of the main hall is a plano and corned duct at intervals during the day.

Up to noon to-day it was estimated that 5,000 people were on the ground, and fully double that number are expected when the racing begins.

The light in the main hall and machinery hall

The light in the main hall and machinery hall is excellent. Geo. M. Oyster, esq., has a display of most tempting looking butter in palls and tubs. The oyster boat Fanny in the procession yesterday was the exhibit of Messrs. E. L. and C. M. Johnson, of the Tangier Oyster depot. There is complaint on the part of the members of the local press of a lack of the usual facilitie to enable them to make satisfactory reports of the fair. The managers will do well to remedy this and afford reporters proper accommodations, as was done at the Centennial and is usual at state and county fairs. It is a matter of mutual benefit to the enterprise and to the newspapers.

THE FREEDMAN'S BANK INVESTIGATION. -Sens The Firedman's Bank Investigation.—Sena tor Bruce said to a Star reporter to-day tha when Congress meets he will have the report of his examination of the books of the Freedman's Savings Bank ready to be submitted to the committee of which he is chairman. The committee will decide whether to make it public or not. The committee may also decide to take testing in concertion with Senator Bruce's investigation since Congress adjourned.

AN ENERGETIC TEMPERANCE MAN met a neighbor on the street in Oil City badly under the influence of liquor. He determined to assist the neighbor home. With mueß trouble the two started, and the abstainer was put to it to keep himseif and his wabbling companion from failing into the gutter. In his drunken enjoyment the inebriate sang and yelled until his home was reached, when he noisily persisted in being accompanied into the house by his friend, who as stoutly refused to go. The noise finally awakened the neighbors, and in a few moments heads were out of the windows in all directions. What's the troubler" asked one. "Nussing, nussing, ash all, "yelled the drunken man, "cept Mr. — and me's on a thunderin' big drunk, and I'm trying to get 'lin home."

Horeible Death in A Serpen's Coll.—Home a Hungarian Glant was Crushet by a Boat Constrictor.—One of the most intrepid wild-beass tamers in Europe, Karolyl, a Magyar, of extension of the most further and extraordinary physical stature and extraordinary physical contingency of his perilous a victory of the perilous procession. In dream performing before a crowded andience in Madrid, not long since, ote of his most sensational feats, which consisted in allowing a huge boat constrictor, over twenty feet in length, to enfold his body in its tremendous colls, when suddenly a piercing cry escaped him, which was greeted by the public with a round of applause under the supposition that its utterance constituted a part of the performance. It proved, however, to be the outcome of a strong man's death agony. The gigantic snake had tightened however, to be the outcome of a strong man's death agony. The gigantic snake had tightened its colls, and crushed poor Karoly's life out of him, with one terrific squeeze. As his head fell tack and his eyes became fixed in a glassy stare the plaudits died away, and were succeeded by the stillness of utter consternation. The snake and its lifeless witchin swayed for a second or two of inexpressible horror, and then toppied over on the hoards of the stage, but the boa did not in the least relax his grip upon the corpse, which remained for more than an hour imprisoned in its hideous threithous nobody daring to approach the line for the proper of whose power such appailing proof had been given.

Hanlan's Proposed Trip to Australia.

Hanian deciares that he will not budge from the conditions contained in the articles he sent Courtney. Hanian will certainly not go to Washington, and will insist upon Mr. Blatic being referee, and will hear of none other being chosen. He thinks Courtney very much over-rated, and is fully persuaded, as he has been from the beginning, that the Union Springs man never meant to row.

Mrs. Mecker and Party at Alamosa.

DENVER, Cot., Oct. 29.—A special dispatch to the Tribme from Alamosa, 300 miles south of this place and the terminus of the Rto Grande reliway, says: "The women and children, the recent captives among the Ues, arrived here at 4 p. m. October 8th, where they will remain for a few days before proceeding to Denver. They were surrendered to Special Agent Adams after a parley of five hours at the camp on a tributary of Grande river on the 21st Inst., and on the morning of the 23d started homeward, proceeding through the Indian country in the care of employes of the Los Pinos agency to Ouray's house and the agency arriving at the latter place on the morning of the 25th. They started immediately homeward and arrived at Alamosa as above. The captives report that the money and papers which were represented to be safe were destroyed or taken by the Ues. Miss Mecker's life was once threatened by Douglass, who placed a gun to her head, but she did not filnch, and told Douglass that she was afraid neither of Indians nor death, and he skulked away. The women agree that she was afraid neither of Indians nor death, and he skulked away. The women agree that they owe their safety to one woman, Susan, the wife of Johnson and sister of Ouray, who protected them at all times, even going into the council, an unnprecedented move for a woman among the Indians, and raising her voice for the release of the prisoners."

Readjusters Adjust a Personal Difficulty.
FREDERICKSBURG, Va., Oct. 29.—At a readjusters meeting here last night, J. L. Powell, the readjuster candidate for the state senate, publicly pronounced John Taylor, of the Reorder, as a "har and coward," Taylor drew a pistol, which was struck down and discharged. Powell then also drew his pistol, but was disarmed before he could fire. A large audience was present and great confusion existed for a short time; but after appeals from leading citizens order was restored and Powell resumed the stand, and at the conclusion of his speech denounced the course of the offending newspapers towards himself, and pronounced those who would not meet him as gentlemen, lars and cowards. At a late hour the difficulty was adjusted by a retraction of the offensive language by the Recorder and a like retraction by Powell.

platform of the Richmond, York River and
chesapeake railroad was gotten under control
before the Richmond fire engine reached the before the Richmond fire engine reached the scene, the New York steamship Richmond hav-ing arrived and put on streams from her pumps. The first report of the amount of cotton burned was exaggerated, the number of bales being only between 200 and 300. None of the sheds or wharves were burned. The fire originated from the sparks of a locomotive. Great excitement prevailed, the West Point people fearing the fire would spread to the town.

The Emperor's Speech.

London, Oct. 29.—The Berlin correspondent of the Times explains that the absence of any reference to European politics in the speech of the Emperor William at the opening of the Prussian Diet yesterday was due to the fact that foreign affairs are the exclusive concern of the empire, and their mention would be out of piace in a speech from the Prussian throne; and that the reason no reference was made to certain vecd questions of school and church policy would seem to lie in the circumstance that no legislative step in these regions is at present contemplated.
